### CHOOSE THE SON

The Vietnam War produced stories of extreme valor, heartache, success, failure, victory and defeat. I have often said that my heroes are those who, loving life and fearing death, none the less left their non-warrior jobs, precious families and homes to go where many ran from, to do what they feared, because our nation called. Moral courage has always been of greater importance than physical bravery to me. To my knowledge one of the greatest stories to emerge from our longest war involved a young man and his dad. Every reader of this Newsletter should remember and pass on this story of Promise.

The dad had worked hard and been rewarded with tremendous earthly wealth. He used much of his finances to collect art treasures from around the world, a hobby he shared with his beloved son. It wasn't the collection he revered, but the quality time the two spent together. The two men were inseparable as they identified, acquired, and arranged what became one of the truly premier collections in the world. Just at the height of their enjoyment, when people like Bill Clinton were avoiding the draft, burning Old Glory

and visiting the Soviet Union, the son was called to serve. His father's influence and means could have kept him home, but he chose instead to put on the uniform of the United States and do what our country said was right. The two vowed to renew their wonderful pastime when the son returned. You can imagine the father's grief when word came that his boy had been slain. The man lost total interest in fine arts and sealed up that part of his home.

Several years passed before a young man knocked at the door. The father had grown old beyond his years grieving over the loss of his son and companion, the last member of his family. The visitor explained how he had delayed coming until he could finish a drawing of his comrade — the son. It wasn't a masterpiece, just an amateur's best work. He explained how his best friend had died saving the visitor's life. The two sat for hours as the younger man recounted how the son used to talk about the great pleasure he and his dad experienced working together on the art collection. The man had vowed to capture the goodness in a drawing of the buddy he remembered so well. It had taken the intervening years for his unskilled hands to produce all his heart could see. The dad thanked the soldier, accepted the gift, reopened and continued the expansion of his collection with the pen and ink likeness of his son as its center piece.

When the old gentleman died, his Will revealed that an auction was to be held to dispose of his priceless collection. Connoisseurs from around the world came to bid on the great works of art. The first sketch, amid such incomparable works of Andrea del Sarto (16-Century frescoes *Madonna of the Harpies*), Fra Angelico's 15th C. mural, *Madonna of the Linen*; Max Beckmann's *The Descent From the Cross*; Gentile Bellini — Renaissance *Saint Francis in Ecstasy*, even Michelangelo da Caravaggio's *The Supper at Emmaus*, was that of the son. The skilled eyes of the learned audience knew at a glance that the rough drawing was made by an amateur — no one would offer even a \$100 bid.

A one-time friend and servant of the family had stopped by the open-house to watch the bidding. She felt terrible that no one would offer a cent for what she knew to be the most loved of all the former owners treasures. Searching her purse she produced enough wrinkled bills to meekly offer \$50. The auctioneer tried in vain to excite the many representatives of the rich willing to pay tens of millions for a single painting or sculpture. Finally, in desperation, to bring the quality pieces of the vast collection to the block, the gavel went down in favor of "the nanny with \$50." Some laughed, others

shifted in their seats glad to get on with the valuable offerings, but everyone gasped when the executor of the estate came to the podium and announced: "This auction is now over!" The trustee explained to the stunned audience that the Will clearly specified that whoever took "The Son," would receive the entire estate!

At the risk of offending individual spiritual preference, may I ask each of you to honestly consider accepting the sacrifice of Jesus Christ in atonement for our sins that we might receive all that our Heavenly Father has waiting for us? Whoever takes the Son gets it all! I thank God for His immeasurable patience and love for me. There was a time I almost gave up on Him, but He never gave up on me. I've mentioned how, like a small boy riding on my Granddad's lap, I thought I was driving his big truck, even though his finger was at the bottom on the wheel. As I review my life, even though I often thought it was me at the wheel, I recognize God's Grace keeping me on track. Without God there is nothing. With Him, through His Son, we have all hope.

A retired Illinois man, Frank Capaci (67) won the \$195-million Power Ball Lottery in May. He wisely settled for a \$104-million instant pay-off that will net him about \$68-million once the taxes are paid. Capaci announced that he would use the winnings to buy a Harley Davidson Motorcycle. It made me feel good to know that I already have what a 100-times-millionaire wishes for — a Harley, and the girl of my dreams for my wife. I hope your eyes are on a prize greater than any power ball pay-off. While all of us might wish for cash, shouldn't we rejoice at what God has allowed us and be thankful we aren't saddled with the problems that accompany big money? I wish everyone could have a Harley in their life — and a dream girl come true.

## ALMOST HEAVEN GETS AN LZ

I am proud to announce that any Flying Elks can now land at Almost Heaven's new landing zone (LZ). The roads at Flying Elk II, along with the 3,000-foot airstrip are being completed as this Newsletter goes to print. Dream Catcher, our 150 horsepower Piper Tripacer will be the first bird to officially light on our new private runway. The Grangeville based Highland company under Andy Hairston did a great job in giving us the highest quality roads of the Almost Heaven nine subdivisions. All that remains is a proper topping for the runway. Hard-surface would be nice, but ex-

pensive. At present we plan a grass-turf top. The Northwest landing — Southeast departure offers a clear approach 2,000-feet over the Clearwater Valley. The runway belongs to all the owners of property at Flying Elk II, with assurance that any Almost Heaven operated aircraft has access to the airport. At present I have 20 students in line for pilot training. What a thrill to leave the Flying Elk runway and instantly be 2,000-feet above the ground! We still need someone experienced in running a Fixed Base Operation to purchase the acreage set aside as the FBO. I'm also looking for a young competent Almost Heaven CFI ready to take 20 new solo pilots through certification as FAA Private Pilots. This July 4th, we will be offering "Penny-A-Pound" airplane rides to kids at the new airport in keeping with our "As America Once Was, We Still Are," Independence Day theme.

Idaho County has been widening the Woodland road in preparation for black-topping this Summer. Additionally Highland will be applying fine gravel to some of the Almost Heaven sub-division roads. The improvements will be paid for with receipts from this year's grass harvest. The completion of Flying Elk II roads and runway fulfills my promise to provide a Constitutional Covenant Community capable of being an ark in a time of Noah soon to arrive. More and more quality Americans are moving their homes to Almost Heaven. We have fewer than 20 homesites to be claimed. Each of the nine subdivisions will have its own organizational make-up in coordination with the other communities. Together, we provide the security unavailable anywhere else on the planet for people desiring to remain free.

## SPLENDID ISOLATION

Almost Heaven is the safest place in America from killer heat waves, ice storms, hurricanes, tornadoes, earthquakes, volcanoes, floods, droughts, and other natural disasters. It has proven to be a location low in allergens, mosquitoes, vermin, and disease. We are free from the dangers of military targeting, nuclear power plant problems, bad government, social upheaval. We live in an ocean of fresh unpolluted air, on rich fertile soil, over clean great tasting water aquifers. Abundant herds and flocks of wild animals and game fish share our unique ecosystem. We are surrounded by National Forests, Wildlands, Indian Reservation and State lands. Even the massive confiscation of property in the projected UN-US land use programs shows our community free. Almost Heaven didn't just happen — it was carefully planned and painstakingly pulled together. Almost

Heaven is special — a place where regular Americans can afford a billionaire-view with interest free payments. Idaho County still accepts Recorded Land Patents, but it will take more than law and documents to keep you and your property safe in the times to come. Our covenant is simply that every home owner pledges to stand in the righteous defense of every other member's Constitutional rights. As America once was, we will remain.

"Splendid Isolation" might be an appropriate term in describing our community. Up on the escarpment above the Clearwater Valley, we can see the distant mountains of Oregon and white caps of the heights north of Boise. The county-seat of Grangeville lights up at night like a diamond constellation supported by a string of glimmering townships following the winding Clearwater River. Daylight reveals the Cammas plain ablaze with bright yellow fields of Canola. Kamiah (Nez Perce for place of rope litters) is only a mile as a Crow flies — 10 miles via the road, and Kooskia (where the waters join) is just seven more miles down State Highway 12, but like all the other treasures for us on the mountain, while they are near for our enjoyment, we are away from the outside world. Almost Heaven awaits a remnant of Covenant people, directed here not by glitzy advertisements and sales ploys, but by a compelling urge of conscience.

Like Spike, I know that Almost Heaven is right. For five years we have traveled America offering intensive preparedness training that others would not be permitted to conduct — yet we continue free from interference. Once L.A. Swat teams swarmed around us during Spike Delta, but quickly faded. In Sacramento the police were intent on shutting down our Counter-terrorist Driving Spike, but it didn't happen! We came close to losing Almost Heaven when I awoke to the realization that the person responsible had bailed out leaving me with a million-dollar DUE-NOW debt! It was more than I could handle. Left alone, I would have turned the matter over to the Attorney General for prosecution. Claudia picked up the pieces and proceeded with integrity, tenacity and God's Grace to carefully step-by-step restore what was so cruelly crushed.

I have conducted more than 100 special missions the world-over — what I thought impossible, Claudia accomplished. Today, despite a theft of more than \$20,000 from the Almost Heaven account, we stand on solvent, sovereign ground — thanks to C.J.I. She has corrected the mismanagement mistakes and has either paid off, or is within two positive payments of paying off all the property. Whereas the inept had squandered

money on poor roads, services, and ventures Claudia negotiated a 50% savings on Flying Elk II infrastructure, while selling the gravel pit to a working company capable of continued service to all of Almost Heaven. She then recovered most of what would have been a \$70,000 misadventure by her predecessor. C.J. has proven again that honest business practice is essential to success. She has also shown why transplants using human female brains don't cost as much as those from male counterparts — FEMALE BRAINS ARE USED!

I knew God gave me a great gift when C.J. agreed to be my wife. She mothered my three sons, Jim, Jay and Micheil, and daughter Melody. She cared for my dear Grandmother. When money was tight she went to work. When I was around the world in the jungles of Communist Asia seeking our Missing in Action, C.J. stuck by me. When I refused to compromise, erase and forget all that I learned in Burma about White House drug smuggling, Claudia supported me. Threatened with prison over the saving of little Jon and Ben Wiegand, she remains loyal.

Considering all she does in support of Spike, Center For Action, my speaking engagements, Claudia even named my book — *Called To Serve*, do you understand why I gave her a medal for saving Almost Heaven — for us? Can you see why I stand all amazed at God's great gift to me in this fantastic female — this pearl of great price! Now consider that she maintains our personal home, finances, meals, landscaping, me — and more in such a "feng-shwei" (means wind-water in Chinese, but is the new in-way to say "cool") condition. Add on that she was one-day from being 17 when we were married and never completed high school!

Claudia is a woman beyond compare. She is my best friend, business partner, dream girl, surrogate mother of my children, and when time allows, my forever bride. When I gave my life to God's service on an isolated mountain following Vietnam, He gave me a lot to do — and the means to get it ALL done — even unto providing a final ark before the coming of the Messiah. Someday, soon — or after His Coming, Claudia and I look forward to just being normal — in splendid isolation. Next time you see or talk with my beautiful bride, Claudia, tell her thanks — for us all. And don't tell me Angels aren't real — I'm married to one!

Won't you join us at Almost Heaven! Call 208-935-1325 and ask Vicci to mail you current information on the few home sites waiting to be claimed.

## INDEPENDENCE DAY

You deserve a vacation! Please consider this invitation to join us at Almost Heaven on July 4th a loving order. If there is ANY WAY possible catch a plane, bus, train, drive, or hitch a ride to Kamiah this Independence Day. Randy Weaver and his daughters will be here (great opportunity to get an autographed copy of his new book). Patriot songwriter, musician, Steve Vaus from San Diego will join us, singing your favorites from his five albums. Liberty School students will present Gioachino Antonio Rossini's *William Tell* as a contemporary patriotic play, complete with the shooting of an apple off son-Jemmy's head! Following the play, we will graduate our first Liberty School students. There will be individual and team games of skill, probably the best pot luck dinner on the planet, super talent show, penny-a-pound air-rides, all crowned by a Special Forces fireworks show (minus automatic weapons fire). We expect a lot of local folks in addition to nation-wide visitors, including Jack McLamb — a great time to fellowship with God-fearing, American-loving neighbors. Don't ever say I didn't personally invite you to have dinner with my family!

I love our nation, our flag, and the sacrifice of our founders in giving us a legacy of freedom. I believe we should provide a real Amer-I-Can salute. I want as many true patriots as possible to join in a shout only equaled by that of the Second Coming! Will you do it? Make your plans now! Call Vicci 208-935-1325 for further information.

## NOW'S THE TIME

Public School is out. Now is the perfect time to throw students a lifeline and pull them out of the cesspool of public education. Dr. Paul Lindstrom stands ready to help educate your children through the Christian Liberty Academy home-school system. Paul pioneered contemporary home-schooling in America in the early 1960s. It wasn't easy. Most States had laws requiring children to attend public school, or certain accredited private academies. Besides leading State reformation across America, he established textbooks and teaching aids along the lines of the seven McGuffey's Eclectic Readers used to teach our forefathers to read and think. Dr. Lindstrom established the Christian Liberty Academy at Arlington Heights (NW-Chicago), Illinois as both a standard K-12 school and a home-school unit. Today, CLA serves more than 50,000 students in over 54 countries, besides acting as a resident school for more than 800 full-time students.

CLA offers two basic means of education for home-schooling. For parents or guardians who do not have the time, talent, or inclination to teach, CLA has a directive option that outlines every lesson of each subject. Self-programmed texts allow the student to learn while progress is monitored by the CLA faculty. A freer alternative is available to parents and others willing to take an active part in the day to day curriculum. Texts, tests, guidance, and assistance are provided as required. CLA provides the texts and tests for Almost Heaven's Liberty School, along with full accreditation, and administrative transcript transfer support.

All students enrolling with CLA are tested extensively to determine their actual level of learning in each subject. The subjects and grade level are tailored to each student's demonstrated ability. Middle-grade and higher Christian Liberty Academy enrollees are required to read and submit written reports on six books within each school year. Anna would be enrolled as an 8th Grade student in public school, but at Liberty she is able to read at a much higher level. Thanks to CLA's pre-school testing, we discovered that Anna's reading comprehension was equivalent to that of a college Sophomore. CLA's system allows every child to be appropriately challenged in each subject. Besides being the best, CLA is also one of the most affordable. Depending on the services and support rendered, CLA costs about \$100 per year per junior school student, \$200 at the mid-level, and \$300 for senior schoolers. Compare these prices to the \$10,000-plus cost per public school student. What your student will get out of CLA can't be compared with the dumbing-down of children attending NEA-public school. Graduates of CLA are readily accepted by colleges and universities nationwide. CLA students desiring return to public school may transfer all passing course credits.

Most recently Dr. Lindstrom expanded the home schooling option to those interested in achieving a full four-year accredited college degree. Now is the exact time to call Christian Liberty Academy and enroll your loved ones in a way that works. Call CLA toll free at 800-READ-1-2-1.

## WEAVER'S MOUNTAIN

Most readers are well acquainted with what happened on Ruby Ridge, August 1992, where three people were killed by gunfire and two others were wounded. I have told my side of the tragedy many times as a speaker and in this Newsletter. Out of respect for the Weavers, I have not written anything

definitive waiting for their story. In the meantime a made for TV movie gave America a distorted idea of the Weaver Family; several books have been published by people who weren't there. Finally Sara and Randy have their story in print. The book is available this month through BookMasters at 800-BOOKLOG (800-266-5564), POB 388, Ashland, Ohio 44805. You may also secure The Federal Siege at Ruby Ridge directly from Randy by sending \$21.95 (S&H included) to Ruby Ridge, Inc., POB 1101, Marion, Montana 59925. Commo with Randy via e-mail at [ruby@cyberport.net](mailto:ruby@cyberport.net).

I admire Randy for not overtly hating the people responsible for murdering his son and wife. I hope he, Sara and Rachel will forgive me for preventing their deaths at the hands of Dick Roger's FBI-HRT. I can directly relate to how they felt six years ago as they huddled alone within their hand-made cabin. Alone because both Sammy and Vicki had been removed and cremated by the government. Dick Rogers warned me Sunday evening that if Weavers' didn't come out by Noon the next day, they would be "taken out!" Randy didn't know how close he and his three daughters were to death by explosion and gunfire. I purposely didn't warn them because I knew what their response would be. The morning of the final day, Randy said he and the girls (Sara 16, Rachel 10, Elisheba 10-months) had prayed about surrendering, but decided against it: "They killed our brother and our mother. They will have to kill us as well." I knew the feeling.

28-years before, I had thrown my battle gear on the ground, ripped off my tiger-shirt and stormed down a major enemy road screaming in vain for them to kill me as they had just done to my dear friend and comrade, Sergeant First Class William Ferguson. The living feel such guilt that death is preferable over the unbearable pain of remaining alive and seemingly alone. Weavers wanted to join Sammy and Vicki. Unfortunately, both the FBI and Aryan Nations wanted the whole family dead. The FBI swore an oath: "Nobody's coming off that mountain alive!" The White Supremacists wanted martyrs to further their cause. The only ones in rifle range of the cabin who wanted the family alive were Bo Gritz and Jack McLamb.

It was a miracle that we weren't all killed. Rogers was determined there would be no witnesses to the senseless shootings and we weren't going to leave the Weavers alone. Demolition pole charges had been readied Sunday evening to blow the windows and walls. In a last ditch desperate move to save the family, if Randy refused to surrender, I thought to wait until little El was asleep on the floor blankets. I

would then put my arms around Randy, while Jack sought to secure both Rachel and Sara. We would take them to the floor, hoping they would understand, while I gave the code word "*Alaska*." This would tell the FBI that we were on the floor covering Randy and the girls — as safe as we could be from the exploding shards of glass and wood. Rogers would then set off the plastic explosives and his valiant SWAT team would charge what(who) ever was left. Jack feared they would just shoot us all if we survived the detonations — I suspected he was right, but couldn't think of a better plan.

As it turned out Randy probably saved us all when he yelled from the cabin that he had thought it over and wouldn't come out. I bolted to the top of the stairs knowing that Rogers would use any excuse to destroy the cabin and its occupants. The clock ticked down as we did our best to convince Randy to open the door. When he finally did (exactly at Noon — the deadline) it was to say: "Get your things together girls, we are going to follow Colonel Bo down the hill!"

Kevin Harris walked out of the Boise Federal Court room a free man. Randy was acquitted of every serious account. I collected his \$10,000 fine in just two public appearances. During the trial, both the federal prosecutor and the FBI were strongly admonished and fined by the judge for withholding evidence and improper conduct. The Department of Justice would later pay the Weavers \$3.2-million in an out of court settlement for the wrongful death of Sammy and Vicki.

Boundary County Attorney Denise Woodbury, charged FBI-HRT sniper Lon Horouchi with the reckless killing of Vicki Weaver. It was decided that Horouchi would be tried in the Boise Federal Court under Idaho law. Last month Judge Edward Lodge ruled there would be no trial. It meant Horouchi would not give up his chain of command who ordered him to murder Vicki as she stood holding the door open for her wounded husband, Sara and Kevin Harris. Randy was able to add this adjustment to his book as it went to print. The case against the FBI is now under appeal.

Randy and his girls have had a steep emotional climb without the physical presence of Sammy and Vicki in their life. Failure to see the blood of their innocent family cleansed through our "criminal" justice system, the ground remains stained and the trek continues up Weaver Mountain. Be certain to order Randy and Sara's book and get their autographs during your visit to our mountain at Almost Heaven on July Fourth!

## SPIKE IN REVIEW

November 1992 — I kept my commitment to warn America of the coming demise of our sovereignty through insolvency. U.S. Constitutional law could save America, if Americans cared enough to breathe life back into our supreme law by electing patriots into public office from grassroots to the White House. I knew what would happen even before we started in late 1991. Americans would either choose II Chronicles 7:14, or leave the righteous no choice but II Corinthians 6:17. I thought my mission was simply to run a proper campaign of awareness so that those with God's love and law in their heart would have a choice. There would be two more steps required.

January 1993, I began an intensive training effort across the United States designed to teach and equip God's elect to survive the coming tribulation. At the same time I was commissioned to establish an ark for a remnant in a place that would be safe from the prophetic misfortunes to come. Both have now been accomplished. Resident Spike training saw some 5,000 Americans participate in at least one phase with video and Spike team extensions to many more. We will most probably sell out of Almost Heaven home sites by the end of summer, but will continue to offer land through sub-division of current owner lots. It was always my plan that people with vision enough to purchase acreages would end up with their personal homesites being paid for by sharing land with late comers. Still there was more to do.

June 1996 concluded the regular Spike training with Phase-12 in Sacramento. I hoped that individuals would identify specialties through personal interest and become experts in essential skills through organization of local Spike teams, cooperative training programs, and individual pursuit. It didn't happen. I thought a couple of elite adventure courses might prime the pump for follow-up emergency medicine, communications, engineering, field operations, operations and intelligence. We conducted Spike Airborne in Chattanooga and Scuba at Hal Watts 40 Fathom Grotto in Florida. It finally dawned on me that no one can be expected to pick themselves up by their own hair and be transported from one dimension to another. I can't expect Spikers to do for themselves what others combined with experience did for me.

Currently, we are preparing "Specialist" by offering concentrated courses over several days. Completing a Spike Specialty Course does not mean you are done. Like being awarded a Blackbelt, the Spiker

now knows enough to become an expert in the special field of interest they attended. Thus far we have completed Operations & Intelligence, Emergency Medicine, Field Operations, and Spike Weapons; leaving Leadership-Tactics, Communications, and Engineering to be completed. I have trained elite units all over the world from Taesons (Rangers), Frogmen, and HALO (Military Freefall) in South America to Recondo Guerrillas in Asia, Fast Attack units in the Mid-East, and Commandos in Africa. I am very pleased with the progress of our Spikers. Those who have attended both Field Operations are on the verge of achieving a tactical-leadership enlightenment liken to the magical moment you suddenly could swim or ride a bike — once you gain it, it is never lost. For that reason I am going to delay Spike Communications in Denver and substitute Spike Tactical Leadership in Las Vegas. I think it is important to exploit what I perceive as a significant victory.

Spike Weapons (Field Ops II) brought more participants than expected or desired. What makes special operations special is that they never go as planned. Scott Weekly was scheduled but unable to be with us when his Dad passed away in Washington, D.C. Our super long range shooting was shortened some what when much of the ammunition proved faulty. I caution all .50 Caliber shooters using HMG ammunition to consider personally re-priming and hand loading any bullets you desire to fire the first time. Some of our test ammunition had two-second hang fire (not good, especially in .50 Cal). Some rounds did fire after denting the primers more than once. I recall several years ago a USG program offering primers with extremely limited shelf-life to better control ammunition distribution and prevent stock-piling!

Still, the training measured up to everything I had hoped to accomplish. Rather than print a critique in my words, I'll share a letter that just came in from a Colorado Spiker.

*"Dear Gritz Family and staff,*

*I want to take this opportunity in behalf of Alpha-1 from Denver, to thank you for the exquisite training by Stan C on preparing the fresh beef, the really fresh chicken, the fresh sample of Western Buzz Tail, the abuse applied to Doug Olson and Hammer-head (John G) during the self-defense demonstrations, Hammer-head's professional Scope Reticle Range Finding and target training, Bobby Steward's manufacturing of over 150 'Lovers of the Bo(w),' John P's class on weapons modifications, the Jim*

*Jones demonstrations on various grades of Night Vision Equipment, the very informative camouflage class and face paint demonstration, Jim's weapons specialist class, Immediate Action Drills and his no nonsense 'Bull Dog' style of barking out orders to the Company, and the inspirational confidence instilled in the entire Company of SPIKERS by Col. 'Bo' Gritz. Even Jim Gritz who is usually shaking his head in disgust, was smiling at the results!*

*Our Second Platoon Leader, Brad was exceptional, professional, respectful and we would be honored to serve him again.*

*Our 1st Squad Leader John M had very good attitude even after our entire squad argued about our plans and tactics up until the time of our deployment and he learned a lot that weekend the hard way, as we all did. I am confident that he will be sharp as a needle the next time around, as will Alpha-1.*

*Our 2nd Platoon Mess Sergeant was T.D. from Arizona, an old high school buddy of mine and the man who changed my life by introducing me to SPIKE, was noted as in charge of preparing the best chow that Jim Gritz has ever had in the field. Troops were getting back in the chow line at least three or four times. There were no leftovers.*

*The camaraderie was immense. As much as we hated each other during the "war," we love our SPIKE brothers and sisters and would back them up any place, any time, even those guys from Texas.*

*The Memorial Day Service that all of us dirty and beat up 'Memorial Day War' veterans and casualties took part in was the most beautiful ceremony I have ever witnessed. Every troop was lined in a circle around the Colonel. Bo started the Stars & Stripes moving clockwise around the circle. As the flag was passed from one SPIKER to the next, each soldier announced one or more fallen American comrades known to them or not. I have never seen so many hard men and women weep like we all did that day. My dad served in the Big Red One in Vietnam, my grandfathers and uncles on both sides of the family served in W.W.II. They all came back alive. Although I haven't lost anyone, I couldn't help but pitch in some tears when I announced 'All of my dad's buddies in Vietnam.' I'm crying again just writing this letter.*

*We Stand Ready!*

*Kelly S. "Badger"*

We all appreciate Kelly's critique. He was my personal choice for Most Outstanding Spiker, but I was out voted by a majority of my cadre in favor of Tom Peek from North Carolina. I'm known for being a hardheaded uncompromising majority of one, especially when it came to my Cambodian mercenaries in revolt, but since Tom was my second choice, I acquiesced. However, in light of Kelly's comprehensive report, being obvious he didn't miss a thing — other than possibly laser range finders, knives, hatches, flint & steel, CQC by our Concealed Weapons Instructor, and the dislocation of Mitch's knee in the 1st Platoon, I am going to make an exception and designate TWO Distinguished Honor Graduates for Spike Field Ops II. Tom Peek, you and Kelly Sands will be receiving Gold Star Medals and Certificates in the mail! Congratulations to Sheldon R's Guidon winning 1st Platoon — and THANK YOU! Vida W whose fingers fashioned our banner and sewed the Weapons Specialist Badge on every field cap! Vida received the Gold Star Medal for her leadership during the Eiger Sanction in Field Ops I.

For those readers who might wonder what kind of person attends SPIKE, allow me a brief overview. I know of six doctors of medicine, not counting registered nurses, chiropractors, naturalists, et al; Our oldest SPIKER was 81 (we gave him a Cross of Honor), we had several youngsters in the 10-year category, not least of which was Toby, our Guidon bearer, and recipient of a Spike Achievement Medal. I'm glad Toby is home-schooled. Can you imagine his 5th grade teacher asking the class what they did over the Memorial Day weekend and seeing Toby's hand go up! We had active duty service men and women in attendance (recognized Wanza with a Cross of Honor). A Spike lady was part of the Best Squad (decorated twice), several ladies were recognized for outstanding performance.

We even were graced with an undercover FBI agent who revealed himself on the last day with identification and a complement that he had never received so much quality training in such a short time. He probably won't be back since he told me his report won't contain a single negative entry. One FEMA agent from "Erie County" actually dropped his badge in the dirt before deployment to the field, but wouldn't claim it even though I announced the number. Later a wannabe asked for the badge, but couldn't describe it. I personally invite all Americans to get involved with Spike. We are openly and proudly teaching our people to be prepared and *Stand Ready* for every emergency. We train militia how to do what U.S. Codes require of them — support and supplement, not fight proper government. It is only in the second oldest profession that ama-

teurs think themselves equal to professionals. There isn't anywhere in the U.S. outside of restricted secret elite government teams that you can receive the type and quality of instruction presented by SPIKE. Every SPIKE IS AVAILABLE ON VIDEO, even the Special Spikes, thanks to Jam Harrison. Call Vicci 208-935-1325 for information. You may even choose to become a SPIKE Distributor!

My son Micheil suggested that our next Spike Field Ops contain more of my personal participation in the area of tactics and field leadership. SPIKE Tactical Leadership (WAR FIGHTER) will focus on small unit (six-person) tactical field problem-solving, command & control, maneuvering, and W. A.R. Fighting strategy. Everyone will have a "time in the bucket" as we conduct numerous short duration day-night exercises using paintball guns for added incentive. Emphasis will be placed on proper troop-leading steps including the construction and issuance of a proper field order. Every combat leader worth "Green Tabs" (only worn by persons in command, responsible for mission accomplishment, and troop welfare) must balance mission success with troop survival.

As the Intelligence Officer and Reconnaissance Chief of Delta Project (Delta Force), it was my job to field and lead small teams of two Americans and three Chinese capable of infiltrating deep within denied areas to gather and extract strategic information. Those who observed us (including Robin Moore, author of the book *The Green Berets*) thought it was impossible to go into such a hostile environment and come out alive — but we did it numerous times.

The Vietnam U.S. High Command considered the Mobile Guerrilla Task Force as a one-time suicide effort to strike the enemy in his own safe zone. It was beyond reality that my Cambodian MGTF-957 Blackjack unit (equals 21) could recover a U-2 Spy Plane captured by the Communists — but we did! It wasn't even within the realm of human capability for 100 of us to infiltrate War Zone D and remain for an extended period conducting guerrilla warfare operations against 15 battalion and regimental units — but we did! Moreover, we lost ONLY ONE Cambodian KIA in more than 50 raids, ambush, and other combat engagements — NOW THAT WAS A SUCCESSFUL MISSION!

On a less happy day, we accomplished another mission, but suffered a terrible defeat acting as "bait" for the U.S. 1st Infantry Division. I was so angered by the irreplaceable losses that I flew to Trang Sup (CIDG Training Base), secured an alternate Cambo-

dian guerrilla unit in preparation (MGTF 966), returned to the War Zone and fought the enemy, a North Vietnamese Division, "the Special Forces way" until we had extracted sufficient carnage to pay for the precious lives of TF 957. General John Hay, CG of the Big Red One, was so astounded, he presented my entire team with the highest decorations he was authorized to bestow (including three for myself).

At age 44, three Americans (Gary Goldman, Scott Weekly and I) crossed the mile-wide Mekong River into Communist Laos six times on U.S. POW recovery missions. At one point, 100-miles inside Laos, a Pathet Lao Regiment and Vietnamese Special Forces Battalion were dedicated to hunting us down. The U.S. Ambassador was informed by Communist authorities that I would be "summarily executed" when found. A Hollywood puke named Spivy tried to secure the rights to the "Bo Gritz Story" from Claudia. He told her: "There is 99-percent odds your husband will be captured and killed. You need the security for you and the children." Claudia replied: "You don't know my husband very well!" Red River Dave at Knoxberry Farms wrote and was singing "*The Ballad of Bo Gritz*," lamenting how we had been killed rescuing our POW brothers. Against all odds we all made it home!

What about Burma and General Khun Sa's Golden Triangle inner-sanctum? What would you bet two Americans could get in and out again with information on exactly who in Washington, D.C. is responsible for trafficking illegal drugs into America? We actually walked in broad daylight through a Thai Ranger unit guarding the border between Thailand and Burma — using a technique of invisibility. Now, on top of that, calculate the logic and chance of a single target, me, escaping prison after the President of the United States commands: "GET BO GRITZ!" — but it happened!

While training the Afghans, one of the leaders commented: "Colonel Bo, if we do everything you say, we will kill all of the Communists without losing any of our Mujahadeen! That is unacceptable! You have read the Holy Koran. You know we must suffer losses in order to take revenge!"

Many pundits and critics thought Weavers couldn't be saved — until I arrested the Governor of Idaho, FBI Director, Chief U.S. Marshal and Gene Glenn, the Special Agent in Charge of Western States — and the Weaver Family filed down Ruby Ridge. Twice I went to Billings, MT to stall SWAT teams from taking Red Beckman's home.

Many so called patriots are lining up today to say Jim and I will go to prison and Jon and Ben Wiegand can't be saved from a Satanic Connecticut cabal — but you best not align yourself too closely with those cold and timid souls who have never dared greatly — never knowing either victory or defeat!

Point: We can expect to do the impossible; perform miracles on demand, IF WE DO IT THE SPECIAL FORCES WAY!!! I will personally show you the *Dao of Gan-sz-dwei* as an essential part of SPIKE WAR FIGHT. It isn't good enough to just win. To not be a loss, everyone must cross the finish line — **TOGETHER!** This time I will only accept 120 strong-hearts willing to work hard to master an art so rare that it can't be bought or found anywhere but in the form of one who has it, sharing with others through personal direction and hands on experience. Join me — SPIKE WAR FIGHTERS.

## FREEMEN OR FOOLS

Two years ago I flew with Jack McLamb and Randy Weaver to Jordan, Montana. The siege of Justus Township (Clark Ranch) by the FBI had reached a deadly point. Jack and I both vowed there would not be a repeat of Waco if we could prevent it. The Montana Freemen were reported to have scores of angry men behind fortifications with explosives, automatic and heavy caliber guns ready to kill anyone who crossed the line. It was obvious to us that the Feds had run out of patience and were gearing up for the kill. The HRT (Hostage Response Team) responsible for the debacles at both Ruby Ridge and Waco were supplanting the CIRG (Critical Incident Response Group) negotiators. A military staging area north of Fort Peck Lake was filling up with implements of war. I had called Mike Halke, a Montana SAC (Special Agent in Charge) to check on progress and finally to inform him that Jack and I were enroute. I landed my twin-Cessna at Billings to meet Jack and Randy, who were arriving by commercial carrier, and comply with an FBI request to meet with CIRG-SSA (Senior Special Agent Jim Duffy) from Quantico.

Jim and I were about the same size, determined-ugly, with lots of experience milage. Jim said the Freemen had specifically said they would shoot me on sight and to prevent bloodshed the FBI would arrest me upon landing at Jordan. After a short, but heated conclusion, I assured SSA Duffy that they would get the chance the next day.

Jack, Randy and I taxied for take-off even though

the airport advisory was for no flight due to extreme winds, severe turbulence and dangerous storms. Having been through no "Plan B" at Ruby Ridge, my passengers strapped in for a rough flight. The landing at Jordan wasn't picture perfect, but considering a 50-knot quartering head wind with heavy wind-shear and gusts, we were satisfied to be on the ground. The FBI and Montana State Police road-block insisted that I report to the Command Center at the Jordan Fairground.

I saw people there I recognized from Ruby Ridge. Robin Montgomery had been an observer, but now was SAC-HRT. Jim Duffy and the CIRG chiefs were also there along with Director Freeh's #3. More mental judo resulted in a confession that a penetration agent was on the way out with vital information and they didn't want me interfering. I was allowed to be present for the debrief. The female assured the all present that the Freeman were poised to fight to the death with no chance of surrender. They were heavily armed with illegal munitions and ready to use deadly force on anyone including neighbors. The FBI-HRT would have to move to prevent the endangerment of innocent lives. I insisted on being allowed to conduct my own survey of weapons, fortifications and attitudes. The SAC finally agreed.

Jack and I drove an FBI SUV to the Clark gate and walked up the road toward the house about 1,000 yards distance. We were met by Edwin Clark. I thanked Edwin for wearing a POW-Remembrance bracelet — an instant bond was formed. We were all Vets. I was allowed to account for, identify and speak to all personnel within the siege area, including munitions. The Freeman didn't have half of the manpower reported by the FBI and none of the fortifications, demolitions, illegal weapons, .50 Cal. sniper rifles, or killer attitude. We were assured by the group that no one would be hurt who didn't first try to hurt the Freeman. Our first day was done. There would be no armored-aerial assault.

The Freeman had some good points that needed to be made in a public forum. The next day Jack and I suggested a group spokesman make a video presentation that we would present to the media. Russell Landers was self-elected. Concealing the tape until we were before the assembled media, I explained the Freeman position and held out the video — which no one would touch. Finally a shocked TV cameraman accepted the cassette. Jim Duffy told me later: "The hardest thing I have ever had to do as an FBI Agent was get that video away from the media." He said the DOJ needed it for evidence.

Summing up the Freeman attitudes during hours of conversation, it was clear that Gerry Spence was not the right lawyer to represent their interests in court. Spence would not put up with their 1807 law antics, but I knew a lawyer who would. John DeCamp had been key in unlocking the cells to free members of the Militia of Montana when it was feared by freaked-out Montana legislators the MOMs would precipitate a violent nationwide patriot uprising. DeCamp defused the tension in a single day. As a former Nebraska State Senator, John DeCamp had written an explosive expose', *The Franklin Cover-Up*, revealing how the man, Larry King, who sang the National Anthem at both Ronald Reagan Republican Conventions, was using an Omaha savings and loan to launder CIA drug money, supply Washington big-wig pedophiles with children, and as a center of Satan worship. John DeCamp would be the perfect person to weave the valid Freeman points into their defense. America might at last know the truth about the FED and our un-Constitutional system of currency and credit. It was something only the Freeman could do because of their visibility. Every eye in the nation was on them.

We all agreed it was a great plan — all except the Freeman and the FBI. The Freeman turned out to be fools. A means that could have restored Constitutional law never left Justus Township. I was called ignorant because I wouldn't agree that an 1807 opinion describing jurors as only free white males, 21 years or older, who owned property, and didn't work for the government. My argument that laws change when: we won our independence; they changed; when women got the vote; with the abolishment of slavery; the 14th Amendment, 18-year old voters; etc., was rejected. The Freeman would not respect any other court than their own.

The government wanted the Freeman behind bars and that is exactly what they got. Instead of facing reality and doing both America and themselves a great service by allowing a DeCamp to beat the system as both Weaver and I had done by using the law, the Freeman lost a once-in-a-lifetime opportunity and elected to remain contrary and without a voice for two years as America went back to sleep. They are passing now like an unremembered dream from one cell to another with hardly a conscious notice.

I have warned you concerning agent provocateurs. I described how an FBI Special Agent was able to penetrate the Freeman and lure Leroy Schweitzer and his chief lieutenant, Peterson, to a place where they were shot with high voltage-tasers and carted off to the Billings, Montana jail. Last month a sec-

ond tale surfaced concerning the Montana Freeman (the final 12 currently standing trial — two others pleaded guilty). Connie and Dale Jakes have written a book (*False Prophets*) about how they duped the Freeman for 14-months, but were in turn cheated out of \$316,000 by the FBI. Connie hired on as the Freeman office manager. *"On the back pages of her legal pad she recorded names of visiting militiamen, license plate numbers, telephone numbers, and computer code numbers."* The FBI received a dump on dozens of "basic hate groups" who trooped in for seminars on how to pass phony paper for legitimate money instruments. The FBI was so interested it put off the siege in favor of gathering more information. The Freeman (nine in jail for two years) went on trial the 27th of May.

Emmett Clark (69) admitted he threatened Federal Judge Jack Shanstrom. Emmett was sentenced to time served — two years since their arrest following an 81 day stand-off. I was glad to see Emmett freed. He was the actual owner of the property that became Justus Township under Schweitzer and his followers. Emmett can't read or write. Emmett's pride was in teaching youngsters how to shear a sheep the old way — he had been the fastest in Montana. Emmett told me that he was bilked into signing a huge U.S. Government loan by the County Attorney Nickolas P. Murnion, who also doubled as the Jordan town banker and approver of USG Agriculture loans. Murnion knew Emmett couldn't meet the payment schedule and made the loan with the intent of seizing the Clark property from the beginning. The FBI told me they were there to arrest the wrong people. The chief agents admitted the real Oil-Can Harry villain was Murnion!

In the most bizarre miscarriage of recognition I am aware of, Nickolas Murnion was just selected for the prestigious 1998 JFK Profile in Courage Award to be presented in Boston along with a \$25,000 check! The selection was based on his brave stand against the terrorist Freeman.

When I first entered the Clark home, I noticed a huge lower jaw from a Tyrannosaurus Rex. Wondering if it was real, Emmett informed me that the ranch was littered with such remains. If it is true what it said about fossil-fuels, maybe Oil-Can Harry was looking to foreclose on the Clark property for its liquid assets. It was when Slick-50 Murnion started pressing foreclosure that Leroy

and Freeman arrived to save the day. Edwin Clark, Emmett's nephew, was acquitted in April of any wrong doing. Five others, who could have walked out without arrest while I was negotiating, were found guilty of aiding, abetting, and resisting. They have already served two years in pre-trial and will yet be sentenced to more.

A total of 20 "Freemen" were charged. Six were tried in April wherein Edwin was freed and five were found guilty. The current trial is for 14 Freeman charged with more serious crimes. Two of that number pleaded guilty. Emmett was released. Dana Landers (Russell's wife) will testify against the others. Dana must return to Colorado for fraud charges involving the class-action suit I warned you about in 1993. Nine of the hardcore Freeman on trial this month continue to refuse representation and remain locked-up. Leroy and Russell spit in the faces of their jailers and had to be dragged in their underwear to a viewing room to watch the court proceedings. A jury of seven women and five men presided over by Federal Judge John Coughenour will determine the fate of the so-called Freeman. To me the "freemen" missed their calling, What a waste of life, rotting away in a federal prison, when they might have performed a great service to our nation. It is sort of like the Minutemen surrendering to the Redcoats without firing a single shot!

## TREASON BY ANY OTHER NAME IS STILL TREASON

It is public record that William Jefferson Clinton purposely avoided the draft during the Vietnam War. At the end of last month he attended the 30-year (1968) reunion of his Georgetown University class. Both he and Treasury Secretary Robert Rubin ran to England to escape military service. While there they demonstrated against the United States by traveling to the Soviet Union against U.S. law, burning the American Flag, and protesting our involvement in Vietnam. Clinton has a long history of disdain for American men and women in uniform. The feeling is somewhat mutual (Remember the overseas USAF Commanding General who correctly called Clinton a dope smoking, draft dodging, womanizing, coward before resigning his commission). I have long referred to Clinton as our "Coward-in-Chief." What Clinton did 30 years ago is bad enough, but what he is guilty of today is treasonous!

At a time when Communist countries have the proven where-with-all to cover their cities with an anti-missile umbrella, but America doesn't, Clinton personally gives the OK for Red China to receive restricted missile technology. Clinton is obviously devoid of morals, integrity, and any vestige of patriotism. Not too many Americans got upset about wholesaling the White House and Lincoln bedroom to contributors. The *Jewish Forward* even ran an article about everyone who is anyone in New York City Jewry sharing the Lincoln bed. Next, the vets took umbrage when a Jewish millionaire, Larry Lawrence, who bought an ambassadorship to Switzerland was entombed at Arlington Cemetery without ever having served a day in the military. The *Forward* then writes a story about how Clinton's appointments of Jewish officials, while joyous was also becoming an embarrassment. This was at the same time a Washington, D.C. rabbi declared "America is no longer a government of Goy."

In April it was reported that 80-percent of all contributions to the Democratic National Party were made by wealthy New York Jews. May reveals that each of the benefactors is probably expecting a quid for their generous contributions. Bernard Schwartz, for example is the CEO of Loral Space and Communications of Manhattan. Bernard has given more than a million-dollars to the DNC (\$633,000 this year), but denies receiving any special consideration from Clinton's Administration. Combine the Schwartz money with 300,000 from Red China's senior military officer and vice-chairman of the Central Military Commission, General Liu Hua-ying, and you have the makings of another Rosenberg episode wherein Ethel and Julius sold American atom bomb secrets to the Soviet Union in 1951. The Rosenbergs were electrocuted in 1953, but this is 1998.

Looking back on who planted the Satan-bug Federal Reserve System within America in 1913 (Paul Warburg & Associates), who owns the FED's controlling Class A Stock (Goldman, Kuhn, Lehman Brothers, Loeb, Rockefeller, Rothschilds, Sachs, Schiff, Warburgs), who financed the 1917 Communist takeover in Russia, and which convicted U.S. Communist agent (Alger Hiss & conspirators) established the globalist United Nations in San Francisco, 1945; isn't there anything these kind of people value over money? Would it be poetic justice if history finds that Israel becomes targeted by the greed of its own supporters?

Clinton must believe the American public to be worse than stupid. The polls indicate few real people cared about his selling of the White House, gross promiscuity, frequent prevarication, Vince Foster death, association to drug deals, money laundering, appointment of criminals to high positions within the federal government. Why should we bother about such a little thing as treason?

What Happened? On 15 February 1996. A Chinese rocket carrying a \$200-million Loral satellite exploded soon after launch at Sichuan Province not far from Hong Kong. Red China asked for help from the U.S. to find the problem. Loral and Hughes Electronics Corp. (Los Angeles) teamed up to provide assistance. In providing fixes, the Chinese Communists received all the technology necessary to accurately and reliably target every American city with nuclear warheads using their "Long March rockets" — virtually the same ones hired and outfitted by U.S. companies. — ACCORDING TO GENERAL EUGENE HABIGER, Commander of the U.S. Strategic Command! Both the *New York Times* (4 April 98) and *USA Today* (26 May 98) confirm the transfer including attitude control to keep the rocket pointed correctly as it accelerates; kick motors that allow nuclear warheads to avoid anti-missile defenses; payload dispersal systems to facilitate multiple nuclear warhead deployment from a single rocket to different targets; Stage controls to allow multiple booster firing for longer range, and more! What U.S. Senator Richard Shelby (R-Ala) sees as a bombshell, Bill Clinton calls routine (for his Administration). Speaker of the House Newt Gingrich and 151 other members have asked Clinton not to visit Red China this month, but Bill won't be deterred.

Is there a question that belligerent Muslim nations will attack Israel as part of the Armageddon scenario? I believe you will also see a considerable Russian and Chinese presence. The Bible is clear about what tribes of old are involved. A simple check of modern locations will confirm my conclusion. Has China been most forthcoming in supplying Iran, Iraq and other Islamic nations with missiles and weapons of mass destruction technology — our CIA says so — to include support of Pakistan's nuclear detonations last month!

Janet Reno's DOJ is investigating both Loral and Hughes for security violations, but ignoring this, Bill Clinton personally authorized the exception

allowing Loral to make another China shot. Sandy Berger, Clinton's National Security Advisor said on Friday, May 22, that the launch may be criticized for allowing Loral "off the hook" on criminal charges for its unauthorized assistance to China's ballistic missile program." What side is Clinton on?

Remember John Huang of the Commerce Department? The U.S. satellites being launched from China are so secret that an American must accompany, and position each one within the Chinese nosecone. Was Commerce Secretary Ron Brown "offed" because he was balking at Bill's treasonous trade-off with Red China? What does America get besides bribe money? How about "Made in USA" via Chinese slave labor? Will Clinton's treason be the reason Nostradamus saw 400-years ago New York destroyed by a nuclear holocaust in 1999? Want to do more than get mad? CALL THE WHITE HOUSE OPINION POLL 202-456-1111. CALL CONGRESS 800-504-0031. CALL VICCI AT 208-935-1325 FOR INFO ON MOVING TO ALMOST HEAVEN!

## BEHIND THE MASK

*"Beware of false prophets, which come to you in sheep's clothing, but inwardly they are rav-  
ening wolves. Ye shall know them by their  
fruits. Do men gather grapes of thorns, or figs  
of thistles? Even so every good tree bringeth  
forth good fruit; but a corrupt tree bringeth  
forth evil fruit. A good tree cannot bring forth  
evil fruit, neither can a corrupt tree bring forth  
good fruit. Wherefore by their fruits ye shall  
know them." (Quoted from Matthew 7:15-20).*

The FBI wouldn't allow Randy Weaver to accompany me during negotiations with the Freeman, even though no one can speak better than Randy on the pain of losing loved ones during a police siege. I wanted the children out of danger even if the adults were determined to remain. After meeting the FBI-Spl Agent who described how he used an antenna to trick the two Freeman Leaders, I related to Jack McLamb and Randy how the agent had laughed and joked how they were going to have to find a new lure since the antenna ruse had been used before. Randy flew into a fit. Completely unknown to Jack and me, the same attraction had been tried on Weaver just before his son and wife were murdered.

John Trochman, founder of the Militia of Montana had visited Weaver and suggested Randy accompany him to a high-point off the property to erect a communications antenna! When Randy balked, Trochman tried to talk him into "annointing" the perimeter of the property saying it was "Biblical." Challenged and failing to find the Bible reference, Trochman withdrew. Later it was determined that the sites Randy had shown Trochman where agents could best observe the family were locations of remote robotic cameras. WEAVER CALLED IN ON FREEDOM CALL TO CONFRONT TROCHMAN WHILE I WAS INTERVIEWING HIM ABOUT LINDA WIEGAND. Trochman was obviously caught off-guard and was at a loss for words. Randy concluded his comments by lamenting the day Trochman entered the life of his family.

John Trochman represents himself as a patriot. The fact that he has never involved himself to a level of personal risk in the interest of others, shouldn't be held against him. I don't recommend anyone place themselves in the breach between government and their intended target — it can be non-habit forming. But, if Trochman is going to represent himself as being a patriot prophet, he shouldn't publish outrageous poison about people who produce good fruit.

Trochman publishes a Militia of Montana newsletter wherein two of his "investigators" state a bald-face lie that Trochman should explain or admit that he is nothing more than a deceiver, who is, or should be a paid disinformation lackey. The Trochman article, entitled "A Visit With Shirley Allen" states that Oral Deckard and Don Cook went to see Shirley Allen at her home in Roby, Illinois. Shirley is the Registered Nurse who was besieged by State Police after she refused to submit to a psychiatric evaluation. I was greatly concerned about her safety and would have intervened in the siege, but was informed that the local militia desired that Jack McLamb be their representative. They had paid Jack's way and dis-invited my participation. I continued to do what I could over Freedom Call, public appearances and through this Newsletter.

John Trochman prints that Oral and Don were sitting with Shirley when her "government appointed ex-guardian, Reese Lindsey, showed up." "She made a place for him at the table, and he basically dominated the conversation for the next two hours, until we left. But I did learn a lot from

*him. For instance while downplaying the significance of the loud speaker abuse every 15 minutes around the clock for 10 days, he said they had not taken the advice of Bo Gritz to use the loud speakers to ramp up her mental stress, then lower it and ramp it up again, repeatedly. "This came as a suprise. I knew they had done this, but I didn't know it was on the advice of Bo Gritz. He kept saying that Bo Gritz urged them to do it, but they had not done it. Then Shirley corrected him, saying that they had indeed done that. Finally Shirley and Reese agreed that some of that had been done, but it hadn't been done to the extent that it had been employed in Waco where they blasted away with the recorded sounds of the death screams of rabbits being tortured and killed. But now I wonder, could Bo Gritz have served in an advisory capacity there too?*

I have purchased \$1,000 face value in gold coins from Swiss America (Craig Smith) toward my retirement security. I challenged Trochman to prove the truth of his statement. It is an absolute lie. Trochman is a liar! I will give Trochman or any one else my \$1,000 of GOLD TO PUT UP OR SHUT UP! Why will any righteous person support or listen to a proven liar?

I'm used to criticism from people who have never dared enter the arena, but in the case of John Trochman and Clay Douglas (The Free American), they are hurting two little boys, Jon and Ben Wiegand. Clay Douglas admitted on Freedom Call that he didn't have a single document from Linda Wiegand concerning Jon and Ben, yet he continues with Trochman to debauch her person, attack those who support her, and proclaim that Tom Wilkinson, Jon's step-father, has never abused either boy. WHY? Why will two men claiming to be Christians and Patriots refuse to consider a mountain of official evidence topped with Jon Wiegand's own 65-page deposition that he was raped 15 times at knife-point by Wilkinson, who he says dresses up like Satan, cuts himself with a knife and bleeds into a Satanic cup!

I SMELL A RAT'S NEST! I have challenged both Trochman and Douglas on their out and out lies and distortions. Both of them are scheduled to be at the Atlanta Preparedness Expo on June 12-14. I FULLY PLAN TO CHALLENGE THEM AGAIN. I BELIEVE THESE MEN ARE OF EVIL INTENT. I HAD NO IDEA WE WOULD BE FIGHTING TRAITORS IN OUR MIDST WHEN JIM AND I BEGAN THE

QUEST TO SAVE JON AND BEN. TROCHMAN AND DOUGLAS MUST REPENT OF THEIR WAYS IF THEY SERVE THE CHRISTIAN CAUSE. IF THEY WILL NOT REPENT, THEY SHOULD BE ROUTED OUT, IF PATRIOTIC AMERICANS ARE TO HAVE A CLEAN FLOW OF ACCURATE UNDISTORTED INFORMATION! You can read the boys' own words and see the legion of experts who say both Jon and Ben were sexually abused. Wiegand passed a polygraph test that Wilkinson won't take. See for yourself: Call 1-409-935-5183 for a bound copy of documents including Jon's court recorded sworn statement. You can also access information at [www.angelfire.com/tx/reachme](http://www.angelfire.com/tx/reachme). I also have documentation on [www.bogritz.com](http://www.bogritz.com). ATTACKING RANDY WEAVER OR ME IS ONE THING, DAMAGING TWO LITTLE BOYS DEMAND POSITIVE ACTION! Linda Wiegand notes that it wasn't long after she went to John Trochman for help, that the FBI stormed her apartment.

There are seven things that God hates (Proverbs 6:16) Every one of those listed are to be found within the wicked imaginations and mischief to be found in the conspiracy of Trochman and Douglas. I too despise these traits, but even more, I dislike people who gnaw at the ankles of doers without any intent of taking up the cause or offer of solution. This describes both Trochman and Douglas. REMEMBER: LINDA WIEGAND IS NOT THE ISSUE. JON AND BEN CAN'T SAVE THEMSELVES. THERE IS NO BETTER NOR MORE WILLING PERSON THAN THEIR NATURAL MOTHER, LINDA WIEGAND.

## OUR U.S. SUPREME COURT

Nine distinguished Justices form the highest government Court in our land. Currently they are: Chief Justice William Rehnquist, Stephen Breyer, Ruth Bader Ginsburg, Anthony Kennedy, Sandra Day O'Connor, Antonin Scalia, David Souter, John Paul Stevens, and Clarence Thomas. All except Thomas, Kennedy, Rehnquist are admitted millionaires with newcomer Ginsburg leading the pack with more than \$21-million. Ginsburg's husband, Martin, is a well connected tax lawyer. *Insight Magazine* reports that Justice Ginsburg has participated in 21 cases that involved companies in which her husband had invested. You should know the nine people responsible for determining what is valid law in America. For quick reference to gobs of information access the U.S. Supreme Court's internet website at [www.oyez.nwu.edu](http://www.oyez.nwu.edu).

## PHONE-SCAM

Sheila Marie Reynolds — Resurrection News & Fax Network (520-634-1486) sent a warning that every reader should take note of concerning a telephone scam that could happen to any one at almost anytime. *"I received a telephone call from an individual identifying himself as an AT&T Service Technician who was running a test on our telephone lines. He said that to complete the test we should touch '9' and '0,' plus the '#'-sign and hang up. Luckily we were suspicious and refused. Upon contacting the telephone company we were informed that by pressing '9-0-#' you end up giving the individual who called you access to your telephone line and allows them to place a long distance call, with the charge appearing on your bill. I have verified that this actually happens."* GTE Security confirms this report is valid. They encourage everyone to pass on the information: **DO NOT PRESS 9-0-# FOR ANYONE YOU DON'T WANT CHARGING LONG-DISTANCE CALLS TO YOUR ACCOUNT!** Robert G. Weaton adds: *"I spoke with a regular AT&T operator named Brian Heuertz who verified that the '9-0-# Scam' is real. Additional information can be obtained from the AT&T Security Department at 800-337-5373. Call Sheila at 520-634-9269 or write POB 601, Cornville, AZ 86325 for info on how to benefit from her service. Sheila Reynolds is much more than a pretty face and soft voice. Thank You Sheila for all your righteous service to our Amer-I-Cans!"*

## FORGIVE AND "FORGET"

We are commanded to forgive those who trespass against us 70 – times -7, but can we forget. God doesn't give us more than we can handle and knows that requiring us to "forget" might be too much to expect, but we shouldn't apply our own shortcomings to God. He does forgive and forget — under the right circumstances.

Some things are important enough to be repeated. Several months ago I shared a Scripture: Hebrews 10:17. It is one of the most important, yet neglected keys to our understanding of Salvation. Clergy ignore this reference even as they skip over II Thessalonians 2:3 ("falling away") and Revelation's prophesy in 13:17 (beast "mark,") and 14:11 concerning torment and smoke. Such talk doesn't fill the offering plates or tithing envelopes — yet they are promises from God!

Let's just focus in on Hebrews 10:17. *"And their sins and iniquities will I remember no more."* God is

speaking to His people concerning the perfect sacrifice of His Son, Jesus Christ for the atonement and remission of the sins of all who accept the Son. His words are clear: *"And every priest standeth daily ministering and offering oftentimes the same sacrifices, which can never take away sins"* (Heb 10:11), there is only one sacrifice for sins forever — Jesus Christ! Listen to the Holy Ghost (Heb 10:15-16) *Whereof the Holy Ghost is a witness to us: This is the covenant that I will make with them after those days, saith the Lord, I will put my laws into their hearts, and in their minds will I write them."*

How much depression, sorrow, even suicide would vanish if everyone who claims to be a Christian would remember these words? Do you believe God lies? If not, why won't you accept all the gifts that go with accepting the Son — including the fact that only God loves us enough, and is great enough to not only forgive our sins, but also forget them, when we honestly choose Jesus Christ as our Savior. None of us are perfect, if we were what would be the reason for us to linger. Enoch was translated (Heb 11:5) when "he pleased God." God knows that we aren't perfect, otherwise why would His Son have to be sacrificed to cleanse our sins? Now for the real thriller! If God promises to FORGET our sins, how can we think that someday we will be required to account for every one before a judgement throne — as so many preach?

So many well intended readers of the Bible are confused by apparent contradictions. God does not lie. The Bible is a history of God's interaction with His covenant people. The Bible is recorded in "dispensations" wherein the laws were modified, but not God's Word. Before Christ, in the dispensation of Moses, the people made blood animal sacrifices. Christ's sacrifice on the cross did away with the need for animal sacrifice. God did not lie, He simply supplied a different way for His people to be cleansed of sin. There was a dispensation for Adam, and one for Noah. Didn't God enter into a covenant with Abraham? Weren't there changes with Moses? Even as the laws of man are changed from the Dred Scott case of 9 March 1858 (a black slave was chattel), to the Abolition of slavery, 18 December 1865, with Congressional acceptance of the 13th Amendment.

I TRULY LOVE EACH OF YOU!  
KNOW THAT I AM FOREVER YOUR  
BROTHER!

### Who Is Bo Gritz — What Is His CENTER FOR ACTION??

Center For Action (CFA) was started by Col. James "Bo" Gritz and his wife Claudia in 1989. Bo spent over 30 years of his life serving in the U.S. Army Special Forces and intelligence activities. He is America's most decorated Green Beret Commander. General William Westmoreland named him "THE" American Soldier in his memoirs, *A SOLDIER REPORTS*. Decorated 62 times for valor, Bo is the living role model for the Rambo films. Bo has been the subject of more than 25 books and periodicals via worldwide media. He was deemed an "American Original" by the *Washington Post*, and a "Renaissance Green Beret" in the *Atlanta Constitution*.

After Vietnam, Bo served on the Army General Staff, commanded Special Forces in Latin America and was a Chief of Congressional Relations in the Office of the Secretary of Defense. He holds college degrees in Law & Corrections, Communications, Journalism, and Military Strategy, with certificates in Education, Chinese and Swahili. He has been an ordained Christian pastor for 29 years. Bo was appointed Chief Instructor for the American Council on Karate Instruction with a 6th Degree Blackbelt rating. He is a certified lockmaster, and registered Hypnotherapist.

Bo has led numerous POW/MIA rescue operations, including forays into Laos, Cambodia, Vietnam, and Burma's Golden Triangle. Bo trained Afghan Freedom Fighters and served in Saudi.

In 1989 Bo dedicated the Center For Action to putting accountability back into government.

In 1992 he ran for President and gave Americans a Constitutional choice.

Bo successfully intervened at Ruby Ridge and brought the Weaver family and Kevin Harris to safety. Again during the Montana Freeman stand-off, Bo helped negotiate a peaceful resolution. Bo started his **SPIKE** (Specially Prepared Individuals for Key Events) Delta Force training in January 1993 and traveled throughout the nation teaching preparedness courses for 42-months to more than 5,000 students. The Spike program continues through distributorships and a series of "Special Qualification Courses". Bo has written a monthly newsletter for nine-years.

He founded Almost Heaven, a Constitutional Covenant Community in North Central Idaho above the Clearwater Valley, Lewis & Clark Trail. Considered the chief leader of the American Patriot Movement by the media, Bo is constantly being interviewed. He enjoys flying his own plane and is an active FAA Flight Instructor. Bo speaks at scheduled preparedness expos and teaches at Liberty School. He authored the book, *CALLED TO SERVE*, produced a video, *NATION BETRAYED*, and hosts a talk radio program five days a week. Most of all he loves his bride, Claudia.
